

# versiondog Scripting

## Scripting interface for versiondog

Customize versiondog processes and functions

- **CUSTOMIZATION**
- **FLEXIBILITY**
- **FASTER WORKFLOW**

### What does it do?

- Allows you to customize existing versiondog processes
- Gives you the possibility to write custom versiondog functions
- Expands the functionality of the standard versiondog system

### How will it save time and money?

- Improve integration of versiondog into existing workflows
- Ability to customize functionality at any time means more flexibility
- Individually tailored comparison and upload solutions
- Simplified workflows mean less potential for human error or omission

### Are there any requirements or costs?

- Active versiondog Server license required
- versiondog Scripting add-on

### Where can I find out more?

- [versiondog.info](http://versiondog.info)
